Do you know **your vehicle?**

Connected vehicles are vehicles that can "talk" to other vehicles. Fully automated vehicles can drive without a human operator.

Do you know your vehicle?

**Adaptive Cruise Control (ACC) is an
Advanced Driver-Assistance
System (ADAS) feature!**

**ACC uses sensors to keep your vehicle moving with
the flow of traffic instead of a specific speed.**

#CAVDAY

It's National Connected and Automated Vehicles (CAV) Day!

**Educating drivers about
the features and uses of
ADAS technologies is an
essential part of
roadway safety!**

#CAVDAY

**Pedestrian Detection
(PD) is an advanced
driver assistance
system that detects
pedestrians in a
vehicle's path.**

CONNECTING FOR SOLUTIONS

Do you know your vehicle?

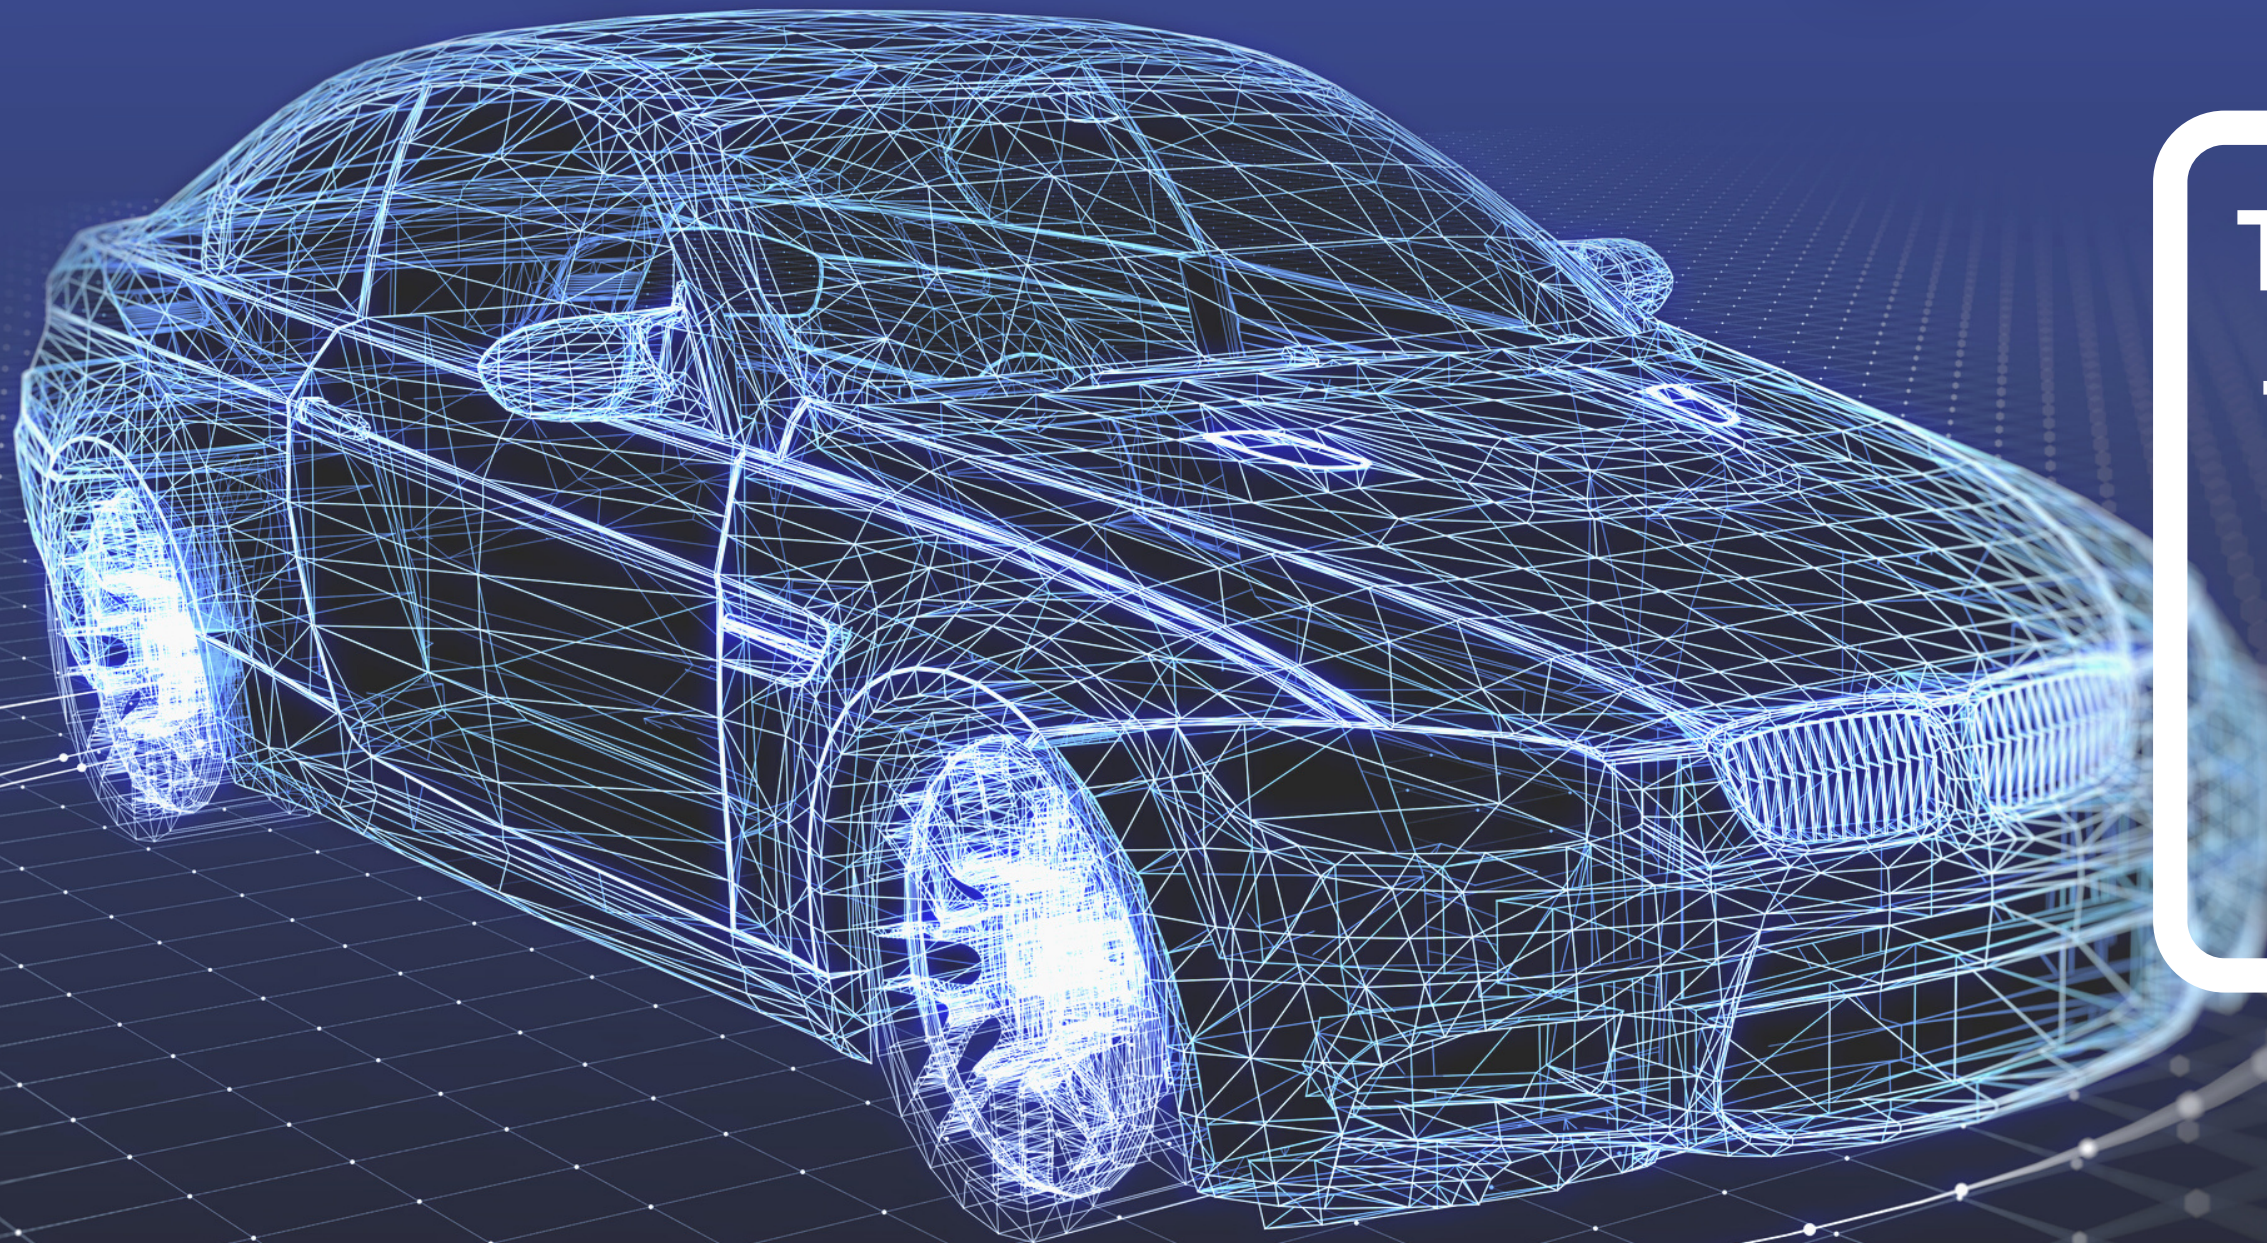

Lane Keeping Assist is an Advanced Driver-Assistance System (ADAS) feature!

All systems are not created equal. Make sure you know how your vehicle operates and always keep your hands on the wheel and pay attention to the road.

#CAVDAY

Do you know **your vehicle?**

Today's vehicles are the future of driving. Make sure you know what your vehicle does and how it operates.
