# National Autonomous Vehicle Day Toolkit

[Click here](#) for high-resolution images
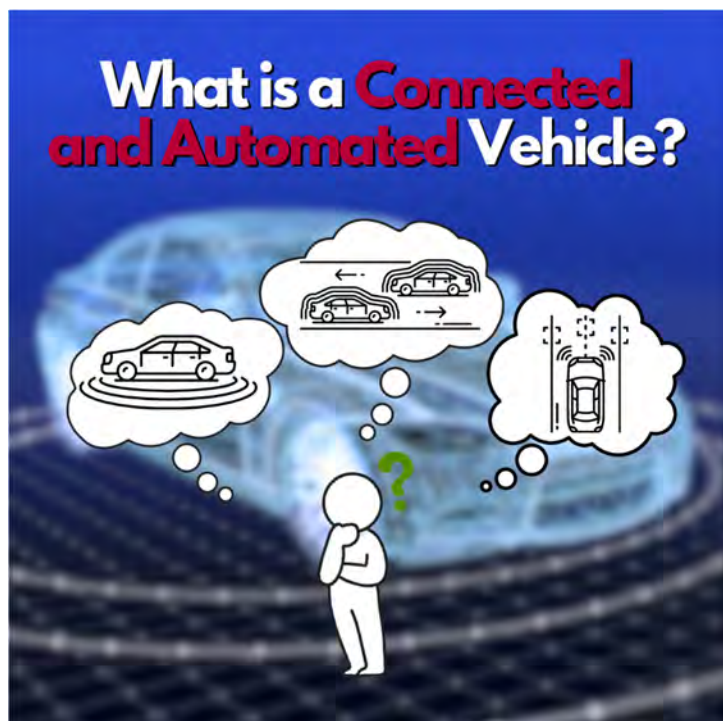

**Post 1** (Intro): Our mission is to make roads safe. Many technologies help to improve safety, especially Connected and Automated Vehicles. We're celebrating National Autonomous Vehicle Day in just one month! Want to learn more? Keep an eye out for more info! #AutonomousVehicleDay

**Post 2** (What is a CAV) Good question! A connected and automated vehicle includes any vehicle that uses advanced driver assistance technologies (ADAS) such as lane departure warning, automatic emergency braking, adaptive cruise control and more! Learn more: https://ow.ly/o3VU50Rolyc. #AutonomousVehicleDay

**Post 3** (Automatic emergency braking) Do you know what your car has available? These vehicle technologies are designed to protect you and others on the road - DO NOT turn them off! Search here to see what tech is in your vehicle: https://ow.ly/o3VU50Rolyc. #AutonomousVehicleDay

**Post 4** (Do's & Don'ts) Even with these incredible technologies it's important to always keep your eyes on the road. Curious what tech is in your vehicle? Check here: https://ow.ly/o3VU50Rolyc. #AutonomousVehicleDay
